

Name: Kashaf Ahmad

Sap ID: 53155

Task 1:

```
#include<iostream>

using namespace std;

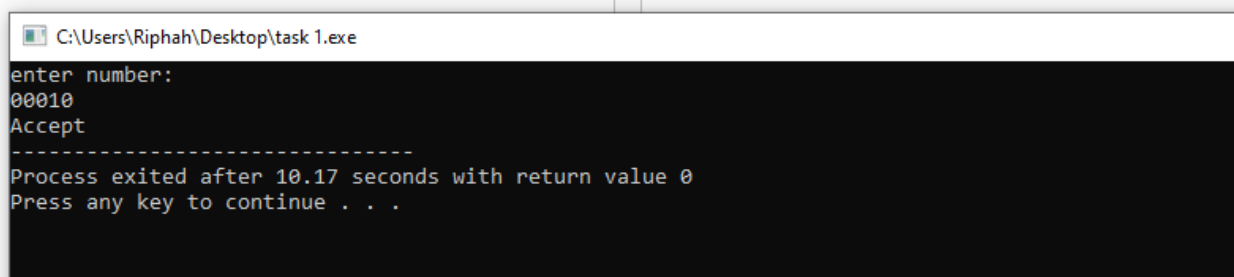

int main ()
{
    string input;
    cout<<"Enter String: "<<endl;
    cin>>input;

    int state = 0;

    for(char c : input)
    {
        if(state==0)
        {
            if(c == '0') state = 1;
        }
    }

    if(state==1)
```

```
{  
cout<<"Accept";  
  
}  
else{  
    cout<<"reject";  
}  
}}
```

```
C:\Users\Riphah\Desktop\task 1.exe  
enter number:  
00010  
Accept  
-----  
Process exited after 10.17 seconds with return value 0  
Press any key to continue . . .
```

```
C:\Users\Riphah\Desktop\task 1.exe  
enter number:  
111111  
Reject  
-----  
Process exited after 5.749 seconds with return value 0  
Press any key to continue . . .
```

Task 2:

```
#include <iostream>  
  
using namespace std;  
  
int main() {  
    string input;
```

```
    cout << "Enter a string: "<<endl;
    cin >> input;
int len=input.length();
    if (input[0]=='1' && input[len-1]=='0'){

        cout << "Accepted" << endl;
    }
    else {
        cout << "Rejected" << endl;
    }

    return 0;
}
```

Enter a string:

101010

Accepted

Process exited after 14.56 seconds with return value 0
Press any key to continue . . .

C:\Users\Riphah\Desktop\task 1.exe

Enter a string:

000000

Rejected

Process exited after 11.61 seconds with return value 0

Press any key to continue . . .
